Your Puppy First Week: Day by Day

Before puppy day

☐ Puppy-proof the main rooms (cords, plants, small objects, bins)
☐ Crate or pen, bed, bowls, lead, collar and ID tag
☐ Food, treats, chews, waste bags, enzyme cleaner
☐ Vet visit booked, family routine agreed

Day by day

Day	Focus	Done
Day 1	Quiet arrival. Show the potty spot first. Short trips every 30 to 45 minutes. Calm first night.	☐
Day 2	Same routine. Start the cue word. Short, gentle play and a nap in the crate.	☐
Day 3	Write down meals, naps and trips. Look for your puppy's pattern.	☐
Day 4	Gentle handling: paws, ears, collar. Keep it very short and rewarding.	☐
Day 5	Introduce a few new sights and sounds at home, one at a time.	☐
Day 6	Practice a short alone time in the pen or crate while you are home.	☐
Day 7	Review the week, celebrate wins, plan the vet visit and next week.	☐

Every day

☐ Potty after waking, meals, naps, play and before bed
☐ 2 or 3 short training sessions
