Puppy Potty Training Schedule by Age

How often to go out

Age	Daytime trip every	Night
8 to 10 weeks	30 to 60 minutes (and after meals, naps, play)	1 to 2 quiet trips
10 to 12 weeks	1 to 1.5 hours	1 to 2 quiet trips
3 to 4 months	About 2 hours	Often 1 trip
4 to 6 months	2 to 3 hours	Many sleep through
6 months+	3 to 4 hours	Usually through the night

These are common guidelines, not rules. Every puppy is different. Ask your vet about your puppy.

The 5 moments to go out

1. First thing in the morning
2. After meals
3. After waking from naps
4. After play
5. Right before bed

Signals to watch

- Sniffing the floor
- Circling
- Whining or pacing
- Heading to the door
- Suddenly leaving play

Every trip

☐ Same spot
☐ Calm cue word
☐ Wait quietly
☐ Reward right away

If an accident happens

- Stay calm, no scolding
- Clean with an enzyme cleaner
- Ask what you missed
- Reward the next success

Sample day (adjust the clock to your family)

Time	What to do
Wake up	Straight outside, reward
Breakfast	Meal, then potty trip shortly after
Mid-morning	Play and short training, potty trip, nap
Midday	Meal, potty trip, supervised time
Afternoon	Nap, outside on waking, play
Evening	Meal, potty trip, calm time
Bedtime	Last potty trip, then sleep

Weekly log (copy this page)

Day	Wake	After meals	After naps	After play	Bedtime	Accidents
Mon						
Tue						
Wed						
Thu						
Fri						
Sat						
Sun						

Tick each success outside and write the time of any accident. After a week you will see your puppy's natural rhythm.
